Research Interest

My research lies at the intersection of machine learning, statistics, and optimization, with a focus on the theoretical foundations of large language models and the development of AI algorithms for large-scale and multi-agent decision-making. I am particularly interested in understanding the mechanisms of large language models, including their training and prompting processes, and leveraging these insights for applications like decision-making. Recently, my work has focused on reinforcement learning from human feedback (RLHF) and the mathematical foundations of reinforcement learning.

Education

2023 – 2026 📖 **M.Sc. Engineering, Computer Science and Technology** at ShanghaiTech University.

2018 – 2022 📖 **B.Sc. Economics, Economic Statistics** at Huazhong Agricultural University.
Thesis title: *The Impact of Demographic Structure Change on the Economic Growth of China..*

Research Publications

Journal Articles

- 1 **W. Wang** and Z. Zhao, “Compressive covariance matrix sensing via quadratic sampling based on nonconvex learning,” *Submitted to IEEE Trans. Inf. Theory*, 2025, Under review.
- 2 **W. Wang** and Z. Zhao, “Large low-rank covariance matrix estimation with oracle rate via majorization-minimization,” *Submitted to IEEE Trans. Signal Process.*, 2025, Under review.

Conference Proceedings

- 1 **W. Wang**, Z. Jing, Y. Shi, and Z. Zhao, “Low-rank covariance matrix estimation from quadratic measurements,” in *Proc. The Conference on Uncertainty in Artificial Intelligence (UAI)*, Under review, 2025.
- 2 **W. Wang**, Y. Shi, and Z. Zhao, “High-dimensional tensor regression with oracle properties,” in *Proc. The International Conference on Machine Learning (ICML)*, Under review, 2025.
- 3 **W. Wang**, J. Zhang, Y. Yan, Z. Jin, and Z. Zhao, “Achieving oracle statistical property for low-rank matrix recovery with application to image denoising,” in *Proc. The International Conference on Computer Vision (ICCV)*, Under review, 2025.
- 4 **W. Wang***, Q. Ma*, Z. Zhang, Y. Liu, Z. Liu, and M. Fang, “Poisoning attacks and defenses to federated unlearning,” in *Proc. The Web Conference (WWW)*, 2025.

Skills

Languages	📖 Strong reading, writing and speaking competencies for English, Mandarin Chinese.
Coding	📖 C/C++, Python, R, $\text{\LaTeX}$, Tensorflow, Pytorch, MATLAB.
Developer Tools	📖 Git, Docker, Visual Studio Code, Jupyter Notebook, Linux Shell.
Misc.	📖 Academic research, teaching, training, $\text{\LaTeX}$ typesetting and publishing.

Miscellaneous Experience

Awards and Achievements

- 2019  **Merit Award**, Huazhong Agricultural University.
- 2020  **Practical Innovation Award**, College of Economics and Management, Huazhong Agricultural University.
- 2022  **Outstanding Graduate**, College of Economics and Management, Huazhong Agricultural University.

Teaching

- Fall 2024  **Teaching Assistant**. CS182 Introduction to Machine Learning.

Professional Activity

- 2025  **Conference Reviewer**. ICASSP2025.
